

# Welcome to the my singing monsters guide

New to my singing monsters?

See this guide!

# Breeding combos

Breeding is a free way to get monsters just by combining a monsters, but you can finish it off now with diamonds or save 15 minutes with an ad (in mobile)

Some include:

+

# For more breeding combos

# Coins and diamonds

Coins are currency that only used for basic features like baking, buying islands and buying little monsters such as toe jammer, noggin and mammot, while diamonds is the most overpowered item in my singing monsters, you can speed up things, buy more monsters and fill inventories

# How to get coins

To get coins, you can get it from basic monsters, however, you can also get daily rewards, spin rewards, and goal rewards, you can also get rich by spending money or exchanging 50 diamonds

# How to get diamonds

Now you can also get diamonds through free ways, though they produce less diamonds, however, offerwalls and surveys can give you diamonds, and you can spend money on the diamonds, the best pack costs 399 AED (108.63 USD)

# inventories

Inventories are a monsters, box or vessel's backpack that should be filled up on time to wake up the monster within it

# How to fill inventories

Apparently you can fill inventories by zapping monsters into them ASAP, and if you can't do that quick, you can fill them for diamonds

# What will happen when it expires

If the chance to fill up the inventory expires, you can get another chance or get back coins/or relics

# The end

Thank you for learning my singing monsters
